

# Amir Reynolds

Atlanta, Ga | [areynolds.engr@gmail.com](mailto:areynolds.engr@gmail.com) | 404-798-1154

## Professional Summary

Computer Engineering student with a strong foundation in embedded systems, digital design, and hardware-level system analysis. Experienced in FPGA development, VHDL implementation, signal processing, and circuit analysis through hands-on academic and lab projects. Seeking opportunities in embedded systems, electrical engineering, and VLSI design where I can apply hardware-software integration skills to develop efficient, high-performance systems.

## Education

Georgia Southern University  
Bachelor of Science in Computer Engineering  
Graduation, August 2026

## Work Experience

Data Analyst Intern | Lovern Logistics | May 2023 – August 2023

- Analyzed large logistics datasets to generate actionable insights that improved operational efficiency, reduced costs, and enhanced customer satisfaction through data-driven decision-making.

Technology Assistant | Georgia Southern University Library | August 2023 – May 2024

- Assisted students and staff by diagnosing, troubleshooting, and resolving hardware and software issues on desktops and rental devices to ensure reliable library operations.

## Projects

Digital Picture Frame

- Designed and built a custom bedside digital picture frame using an Arduino microcontroller and e-paper display to render user-selected images.
- Tools: Arduino, E-paper Display, Embedded C/C++, Circuit Design, Hardware Integration

Library Management System

- Developed a full-featured library management system enabling user authentication, book checkout, and return processing with persistent database storage.
- Tools: HTML, SQL Workbench, C, Python, Java

TIC-TAC-TOE (FPGA Project)

- Programmed a Cyclone DE-10 chip using VHDL, utilizing I/O pins to control game logic and display output.
- Tools: DE-10 Chip, VHDL, I/O Pins

## CLUBS/ORGANIZATIONS

- IEEE - Institute of Electrical and Electronics Engineers
- National Black Engineering Society
- Habitat for Humanity - Secretary
- Tech Developers Association
